SUPPLEMENTARY WANTED LIST NO. 1

IT IS IMPORTANT THAT YOU READ THIS.

1. To follow the Consolidated Wanted List dated March 1947 a number of Supplements, of which this is the first will be published, up to the time when a new Consolidated Wanted List becomes necessary.
2. These Supplementary Lists will all follow the same form as shown in the Index. It will be noted that these Lists provide the names of wanted persons which have not been published hitherto and at the same time 'Amendments' to the Consolidated List, both by name and by Filing Nation. It is hoped that by this method all using agencies will be able to keep up-to-date with the records as maintained by CROWPASS.
3. The 'Amendments' are published as the result of information received, that persons whose names have been published in the Consolidated Wanted List are now either:

- (I) Detained in custody
- (II) No longer wanted
- or
- (III) Otherwise disposed of

Notes. (a) The term 'No Longer Wanted' indicates that official information has been received from the National Office which has filed a wanted report that the subject is no longer wanted by that Nation in connection with the case in which he or she was originally wanted. It should be noted that if in such an instance wanted reports have been also filed on the same subject by one or more other nations the subject is still considered by CROWPASS to be wanted by these other nations until information is received to the contrary.

(b) The term 'Otherwise Disposed of' indicates that the subject of a Wanted Report has been sentenced, acquitted or has died.

4. As mentioned in the frontispieces of former Wanted Lists information that the subjects of Wanted Reports have been detained in custody, are no longer wanted or have been otherwise disposed of can only be processed, recorded and published by CROWPASS if the responsible authorities invariably pass such information to this office. It therefore follows that any discrepancies of this nature discovered by using agencies should be notified immediately, whereupon the necessary adjustment and publication of the 'Amendment' will be made.
5. All recipients of this List are reminded of the following requirements as previously set out in the frontispieces of CROWPASS Wanted Lists:
 - (I) If any person listed should be located and detained the CROWPASS Detention Report (to be invariably submitted in respect of all Detainees) should be completed showing Reason for Arrest as 'CROWPASS Consolidated Wanted List (Part I or II) CR.NO.' or 'Possibly CROWPASS Consolidated Wanted List (Part I or II) ...'. If a Wanted Person is located only and not detained as full a description as possible of the person should be set out in letter form and forwarded to CROWPASS including the reason for non-detention.
 - (II) In the event of CROWPASS thus receiving information of a match or possible match between a Wanted Person and a Detained or located Person the wanted nation is immediately, even although the Detainee may be held in the custody of that nation. In some cases where the person's name has not been listed by the UNWOC and where extradition is applied for considerable delay may be unavoidable. (See page (II)). If and when the extradition of a CROWPASS Wanted Personality has taken place CROWPASS should be informed immediately.
 - (III) If a Detaining Authority receives instructions to Release or Transfer any Detainee who is possibly or definitely a CROWPASS Wanted Personality a check should first be made with that Authority's War Crimes Group HQ. and a copy of the communication endorsed to CROWPASS.
 - (IV) The information given in this list about each person is all that is contained on the Wanted Reports filed with CROWPASS. The descriptions given are brief summaries.
6. CROWPASS has a teletypewriter station in its office. It is 'Station UNW - Berlin'. Using agencies are requested to make use of it as it greatly speeds up replies to requests for information.
7. CROWPASS holds large stocks of Blank Wanted and Detention Reports and they can be had on application by TFM, Signal or letter.

CONCERNING THE UNITED NATIONS WAR CRIMES COMMISSION.

The following is quoted from Section X of Information Paper No. 1 issued by the Reference Division of the United Nations Information Organisation, London:

INTER-ALLIED DECLARATION OF DECEMBER 17, 1942

On December 17, 1942, a Declaration was made simultaneously in London, Moscow, and Washington in connection with reports that the German authorities were engaged in exterminating the Jewish people in Europe. In this Declaration, the Governments of Belgium, Czechoslovakia, Greece, Luxembourg, the Netherlands, Norway, Poland, the United States of America, the United Kingdom, the Soviet Union and Yugoslavia and the French National Committee reaffirmed their solemn resolution that those responsible should not escape retribution and their intention to press on with the necessary practical measures to that end.

There was some delay in setting up the United Nations War Crimes Commission, but it was eventually brought into being by a meeting of Government representatives at the British Foreign Office on October 20, 1943.

COMPOSITION OF THE COMMISSION

The Commission consists of seventeen members: the representatives of the Governments of Australia, Belgium, Canada, China, Czechoslovakia, Denmark, France, Greece, India, Luxembourg, the Netherlands, New Zealand, Norway, Poland, the United Kingdom, the United States of America and Yugoslavia. The representatives are all distinguished lawyers or diplomats.

If a representative is unable to act, or for some other special reason, he may be replaced.

The Commission may hear experts.

The first Chairman was the United Kingdom representative, Sir Cecil Hurst, Vice-President of the Permanent Court of International Justice, formerly legal adviser to the Foreign Office. After his resignation on account of ill-health, he was replaced by the Right Hon. Lord Wright, Lord of Appeal in Ordinary, who represents Australia on the Commission. Lord Wright has been Chairman since January 31, 1945.

TERMS OF REFERENCE OF THE COMMISSION

The Commission has limited functions. It is primarily a fact-finding body, though it has also advisory functions.

Its terms of reference were defined in the Lord Chancellor's statement of October 7, 1942. Its purpose, he said is to investigate war crimes committed against nationals of the United Nations, recording the testimony available, and to report from time to time to the Governments of those nations cases in which such crimes appear to have been committed, naming and identifying wherever possible the persons responsible.

After its creation, it was entrusted with advisory functions, namely to make recommendations to the Governments on the methods to be adopted to ensure the surrender or capture of the persons wanted for trial as war criminals and on the tribunals by which they should be tried.

HOW THE COMMISSION OPERATES

The United Nations War Crimes Commission prepares lists of war criminals on the basis of evidence submitted by National War Crimes Offices which have been set up to detect, investigate and record evidence of war crimes committed against the citizens or subjects of their own countries.

The lists are furnished to the apprehending authorities - at present the military authorities - in order that the persons accused of crimes against people or property may be sent back to the country against which they have offended. This was the procedure contemplated in the Moscow Declaration on Atrocities by President Roosevelt, Mr. Winston Churchill and Marshal Stalin which was issued on November 1, 1943 and by the Foreign Secretaries of their three countries, who had been attending the Moscow Conference of October 16 to 30.

After referring to the atrocities, massacres and mass executions which were being perpetrated by the Hitlerite forces, the Declaration said:

"The United Kingdom, the United States and the Soviet Union

.... speaking in the interests of the thirty-two United Nations ... solemnly declare and give full warning of their declaration as follows: At the time of the granting of any armistice to any Government which may be set up in Germany, those German officers and men and members of the Nazi Party who have been responsible for or who have taken a consenting part in the above atrocities, massacres and executions will be sent back to the countries in which their abominable deeds were done in order that they may be judged and punished according to the laws of these liberated countries and of the Free Governments which will be erected therein. Lists will be compiled in all possible detail from all these countries ..."

Offences against members of the Allied armed forces will be dealt with summarily by military courts, in accordance with international custom.

The following Statement was issued by UNRCC especially for incorporation in the Consolidated Wanted List:

"All Allied Authorities concerned are reminded that in order to secure extradition they should submit to the United Nations War Crimes Commission in London dossiers with charges concerning the offences committed by persons wanted. The United Nations War Crimes Commission in accordance with its terms of reference decides whether there appears to be either prima facie evidence sufficient to justify the handing over for trial of individuals accused of War Crimes or else sufficient ground to consider the wanted persons as suspects or material witnesses"

SUPPLEMENTARY WANTED LIST NO. 2

1. This List is the second Supplement to the Consolidated Wanted List dated March 1947. The first Supplement was published in June 1947.
2. It was hoped that this List would include "Amendments" to the Consolidated Wanted List and Supplement No. 1 but as the inclusion of "Amendments" (amounting to many thousands) would cause considerable delay in the publication of this List it has been decided to omit them.
3. As mentioned in the frontispieces of former Wanted Lists information that the subjects of Wanted Reports have been detained in custody, are no longer wanted or have been otherwise disposed of can only be processed, recorded and published by CROWCASS if the responsible authorities invariably pass such information to this office. It therefore follows that any discrepancies of this nature discovered by using agencies should be notified immediately, whereupon the necessary adjustment will be made.
4. All recipients of this List are reminded of the following requirements as previously set out in the frontispieces of CROWCASS Wanted Lists:
 - (I) If any person listed should be located and detained the CROWCASS Detention Report (to be invariably submitted in respect of all Detainees) should be completed showing Reason for Arrest as "Supplementary Wanted List No.2 CR.NO." or "Possibly Supplementary Wanted List No.2 CR.NO.". If a Wanted Person is located only and not detained as full a description as possible of the person should be set out in letter form and forwarded to CROWCASS including the reason for non-detention.
 - (II) In the event of CROWCASS thus receiving information of a match or possible match between a Wanted Person and a Detained or located Person the wanting nation is informed immediately, even although the Detainee may be held in the custody of that nation. In some cases where the person's name has not been listed by the UNWCC and where extradition is applied for considerable delay may be unavoidable. (See page (II)). If and when the extradition of a CROWCASS Wanted Personality has taken place CROWCASS should be informed immediately.
 - (III) If a Detaining Authority receives instructions to Release or Transfer any Detainee who is possibly or definitely a CROWCASS Wanted Personality a check should first be made with that Authority's War Crimes Group R.Q. and a copy of the communication endorsed to CROWCASS.
5. CROWCASS has a teleprinter station in its office. It is "Station DHBP - Berlin". Using agencies are requested to make use of it as it greatly speeds up replies to requests for information.
6. CROWCASS holds large stocks of Blank Wanted and Detention Reports and they can be had on application by TPM, Signal or letter.

CONCERNING THE UNITED NATIONS WAR CRIMES COMMISSION.

The following is quoted from Section X of Information Paper No. 1 issued by the Reference Division of the United Nations Information Organisation, London:

INTER-ALLIED DECLARATION OF DECEMBER 17, 1942

On December 17, 1942, a Declaration was made simultaneously in London, Moscow, and Washington in connection with reports that the German authorities were engaged in exterminating the Jewish people in Europe. In this Declaration, the Governments of Belgium, Czechoslovakia, Greece, Luxembourg, the Netherlands, Norway, Poland, the United States of America, the United Kingdom, the Soviet Union and Yugoslavia and the French National Committee reaffirmed their solemn resolution that those responsible should not escape retribution and their intention to press on with the necessary practical measures to that end.

There was some delay in setting up the United Nations War Crimes Commission, but it was eventually brought into being by a meeting of Government representatives at the British Foreign Office on October 20, 1943.

COMPOSITION OF THE COMMISSION

The Commission consists of seventeen members: the representatives of the Governments of Australia, Belgium, Canada, China, Czechoslovakia, Denmark, France, Greece, India, Luxembourg, the Netherlands, New Zealand, Norway, Poland, the United Kingdom, the United States of America and Yugoslavia. The representatives are all distinguished lawyers or diplomats.

If a representative is unable to act, or for some other special reason, he may be replaced.

The Commission may hear experts.

The first Chairman was the United Kingdom representative, Sir Cecil Hurst, Vice-President of the Permanent Court of International Justice, formerly legal adviser to the Foreign Office. After his resignation on account of illhealth, he was replaced by the Right Hon. Lord Wright, Lord of Appeal in Ordinary, who represents Australia on the Commission. Lord Wright has been Chairman since January 31, 1945.

TERMS OF REFERENCE OF THE COMMISSION

The Commission has limited functions. It is primarily a fact-finding body, though it has also advisory functions.

Its terms of reference were defined in the Lord Chancellor's statement of October 7, 1942. Its purpose, he said is to investigate war crimes committed against nationals of the United Nations, recording the testimony available, and to report from time to time to the Governments of those nations cases in which such crimes appear to have been committed, naming and identifying wherever possible the persons responsible.

After its creation, it was entrusted with advisory functions, namely to make recommendations to the Governments on the methods to be adopted to ensure the surrender or capture of the persons wanted for trial as war criminals and on the tribunals by which they should be tried.

HOW THE COMMISSION OPERATES

The United Nations War Crimes Commission prepares lists of war criminals on the basis of evidence submitted by National War Crimes Offices which have been set up to detect, investigate and record evidence of war crimes committed against the citizens or subjects of their own countries.

The lists are furnished to the apprehending authorities - at present the military authorities - in order that the persons accused of crimes against people or property may be sent back to the country against which they have offended. This was the procedure contemplated in the Moscow Declaration on Atrocities by President Roosevelt, Mr. Winston Churchill and Marshal Stalin which was issued on November 1, 1943 and by the Foreign Secretaries of their three countries, who had been attending the Moscow Conference of October 16 to 30.

After referring to the atrocities, massacres and mass executions which were being perpetrated by the Hitlerite forces, the Declaration said:

"The United Kingdom, the United States and the Soviet Union

".... speaking in the interests of the thirty-two United Nations ... solemnly declare and give full warning of their declaration as follows: At the time of the granting of any armistice to any Government which may be set up in Germany, those German officers and men and members of the Nazi Party who have been responsible for or who have taken a consenting part in the above atrocities, massacres and executions will be sent back to the countries in which their abominable deeds were done in order that they may be judged and punished according to the laws of these liberated countries and of the Free Governments which will be erected therein. Lists will be compiled in all possible detail from all these countries ..."

Offences against members of the Allied armed forces will be dealt with summarily by military courts, in accordance with international custom.

The following Statement was issued by UNWCC especially for incorporation in the Consolidated Wanted List:

"All Allied Authorities concerned are reminded that in order to secure extradition they should submit to the United Nations War Crimes Commission in London dossiers with charges concerning the offences committed by persons wanted. The United Nations War Crimes Commission in accordance with its terms of reference decides whether there appears to be either prima facie evidence sufficient to justify the handing over for trial of individuals accused of War Crimes or else sufficient ground to consider the wanted persons as suspects or material witnesses"
